UPMC HEALTH PLAN

In support of

Celebrating its 14th year, Savor Pittsburgh is a fundraising event filled with appealing appetizers, mouth-watering entrees, decadent desserts, and signature cocktails. This event combines food, fun and philanthropy for a delightful evening of entertainment you won't want to miss. An exclusive VIP area will be created at Petersen Events Center in Oakland for an elegant evening in support of Magee-Womens Research Institute.

When you partner with Savor Pittsburgh, not only do you enjoy the evening and support a worthy cause, you are afforded visibility for your company and an opportunity to entertain your clients. With more than 1,500 guests in attendance, Savor Pittsburgh is the city's signature competitive culinary event of the year.

Search "Savor Pittsburgh 2018" on YouTube or watch the 2018 Highlights video [here](#).

EVENT DETAILS

A collection of Pittsburgh's finest chefs will share their favorite culinary creations in an all-out competition for the honor of "Dish of the Year." The elegant event blends a scrumptious menu, cocktails, dancing, and exceptional raffle items.

We are proud to offer our guests affordable ticket pricing for a four-hour evening: \$75 for general admission and \$150 for VIP guests. VIP guests will enjoy a one-hour private party on the main floor receiving a first chance tasting of all competing restaurant's submissions as well as top-shelf cocktails. A panel of respected celebrity and culinary judges will sample and critique each dish with awards presented in several categories including the coveted "Dish of the Year."

HOW YOU CAN HELP

Cuisine, cocktails, and dancing make Savor Pittsburgh a fun event, but the real spotlight is on women's and infants' health research at Magee-Womens Research Institute. At Magee, scientists and clinicians are making discoveries across a woman's entire lifespan. From breast and ovarian cancer treatments, fertility preservation programs, prenatal breakthroughs, midlife, gynecology and menopause, Magee is finding answers and translating them into exceptional patient care.

The following pages will provide more information about the research being done for women and infants at Magee-Womens Research Institute, and will outline sponsorship opportunities for this year's event. We hope that you will consider sponsoring Savor Pittsburgh to change the future for women and infants in Pittsburgh and around the world.

Sincerely,

The Savor Pittsburgh Planning Committee

Savor Pittsburgh is Proudly Planned by
Dickerson Creative Communications

Proceeds from Savor Pittsburgh will be used to support world class women's and infants' health research through Magee-Womens Research Institute & Foundation's campaign and will be designated to the Board Strategic Direction Fund (Fund #23001) for the Board of Directors to provide resources as needed.

WHY WOMEN'S AND INFANTS' HEALTH NEEDS YOU

Women are HALF OUR POPULATION... BUT women carry 100% of our FUTURE.

HARMFUL environmental and nutritional influences during pregnancy can lead to LIFELONG complications.

Studies done on men are frequently MISAPPLIED to women.

HEART DISEASE is the leading cause of death in women. Cancer is the second leading cause, and together represent 44% of female mortality.

Women's health research is UNDERFUNDED

1 IN 8 COUPLES have trouble getting or sustaining a pregnancy.

About 4 MILLION babies born in the US each year... but more than 10% of them are born prematurely.

INHERITED GENES increase the risk of certain cancers.

50% of adult women will have INCONTINENCE at some point in their lives.

A WORTHY CAUSE

Magee-Womens Research Institute is the largest independent research institute in the U.S. focused solely on women's and infants' health research. More than 100 nationally recognized physician-scientists are engaged in groundbreaking research spanning diverse aspects of women's health.

Here are just a few of the ways that Magee is making a difference:

PREGNANCY AND NEWBORNS

Scientists continue to make lifesaving discoveries about key diseases such as preeclampsia, fetal growth abnormalities, preterm birth, prenatal genetics and the lifelong impact stemming from those diseases. Nearly 11,000 babies are born at Magee each year and their cutting-edge Neonatal Intensive Care Unit is the largest in the country.

FERTILITY AND INFERTILITY

Scientists are delving deeply into the fundamental mechanisms that govern germ cell biology and pathways that lead to human infertility, to discover means for restoring fertility to diverse populations including young cancer patients.

WOMEN'S CANCERS

The institute's advancements in detecting and treating breast, ovarian, cervical, and other cancers has transformed deadly diseases into ones that are survivable and manageable.
