

# COSMIC STUDY

COLLECTION OF SAMPLES FOR MODEL INNOVATION AND CREATION

The Center for Family Planning Research is looking for women ages 18-40 who are willing to undergo a pelvic ultrasound for a research study.

This research study will help build a model that may be useful for developing new and less expensive medicines for women's reproductive health.

Study participation will involve 1-2 visits at Magee-Womens Hospital. Eligible participants may be compensated up to \$50.
